

Disney Comes to SCC!

The school performances have become an impressive staple of the SCC calendar, and this year's production of Disney's classic, 'The Little Mermaid', reminded everyone just how talented our students are.

Leading the show was Taylor-Jai Whitehouse as the titular mermaid, Princess Ariel, as she falls in love with a handsome prince (of course) and fights through the obstacles put in her way by the evil

Ursula, played by Jake Pointer. Along with the fantastic acting, the stage design literally reached out to the audience in the form of a huge wooden boat, front and centre. On stage was the Under-the-Sea World where fish swam, octopuses attacked and mermaids voyaged free. Additionally, we had a rowing boat for the romantic "kiss the girl" with swans, flamingos and a group of very cute frogs!

Lyn Jones, organiser of the production and Head of Drama, said, "It was wonderful to bring to life such an amazing and Oscar winning show to life. It presented us with numerous challenges including bringing over 130 sea creatures, real and imagined, to life with our fantastic actors".

Taylor-Jai, who played Ariel, said, "This show was definitely an amazing experience: working with new people to produce something wonderful! I loved every second of it!"
